

if you have an STD

you have to tell
your partners

but you don't have
to tell them yourself

Leave it to us. We'll call your current and past partners for you so they can get tested and treated. It's completely confidential and your name is never used. A Disease Intervention Specialist will call you and explain the process.

STD Control Program

When you're diagnosed with an STD, your doctor is required to inform the STD Control Program, part of the CT Department of Public Health.

Call 860.509.7920 to speak with a Disease Intervention Specialist.
